

**FROM 1 JANUARY  
2022**

# NEWS ON "DOOR TO DOOR" SERVICES

## AND REFUSE COLLECTION

Dear citizens,

waste management represents one of the most important challenges in terms of environmental protection, sustainable development and health protection.

The active collaboration with GEA, manager of environmental services and entirely public financed company of which our municipality is a member, allows the timely waste collection and the subsequent start of the recycling process with the aim of recovering many resources and saving important raw materials, ensuring a more sustainable future for our environment and for all of us.

Our Municipality has achieved good percentages of refuse separation collection over the years, but we expect to achieve even more brilliant results through the introduction of some changes to the collection system.

## WHAT CHANGES ARE THERE FROM 1 JANUARY 2022?

### NEW "DOOR TO DOOR" WASTE COLLECTION WILL BE PERFORMED EVERY TWO WEEKS:

- Paper and cardboard
- Plastic and cans/metal packaging

Collection day: Wednesday, according to the calendar that will be delivered

### NEW CONTAINERS, BAGS, KEY FOR GLASS AND ORGANICWASTE PUBLIC STREET CONTAINERS and new standard colors that identify waste

### MONITORING OF NON-RECYCLABLE DRY WASTE

through a container equipped with a device for reading the disposal

### NEW GEA COUNTER ACTIVE FROM 1 JANUARY 2022

Via Donatori del Sangue, 6 (Roveredo In Piano). Open only on Tuesdays from 9.00 to 12.30

FOR INFORMATION:

**AVIANO AB:** please call Giovanna

www.comune.roveredoinpiano.pn.it

## GOALS

New services will ensure:

- **better quality of the materials collected** to encourage the recovery of resources;
- **reduction of non-recyclable dry waste** (waste will be sent for disposal without recovery);
- **much more accurate control of the waste collection service costs**;

Furthermore, this new phase of monitoring non-recyclable dry waste is preparatory to the future introduction of the **corresponding pricing** which will aim to make the user pay based on the dry waste generated.

In this transition period and in a view of the change, users will be informed through the waste bill: the data relating to the personal non-recyclable dry waste production, some “guide” parameters that help to understand if the production is in line with the standards and the economic references of how much it would spend with the corresponding price.

## KIT OF CONTAINERS AND BAGS DISTRIBUTION

**In the second half of November** the door-to-door collection kit will be delivered free of charge to your home (wheeled containers, bags, key for opening the organic waste and glass public street containers).

The operators in charge of deliveries will be identifiable thanks to an identification card. In case of absence from home during the delivery, a notice will be left with the instructions to collect the kit independently on the following days:

- **December 11, 2021**
- **December 18, 2021**

(from 9.30 to 12.30 and from 13.30 to 17.30, at the Civil Protection Building located at Roveredo in Piano, Via dal Mas 26)

## IT IS ESSENTIAL THE COLLABORATION OF ALL

In order to achieve the expected results, it is important that each of us undertakes the punctual separation of waste every day, using the containers correctly.

We are confident that our commitment and your valuable collaboration will be appreciated, we take this opportunity to extend our best regards.
