If you know him, or know people who know him (if you are near to the stage in which you are going to have to make a choice between life and death, I urge you to reach out to him and/or his family and let him know that he has support and that you care). Also, if you know of a charity or non-profit that could assist him in a way that is meaningful, please share this message with them, as well. This is an example of the type of charity he is trying to help with his time. Spread the word and let him know that he's not alone. Thank you for your consideration. PS: This guy and his family really need help. They are currently in serious debt, and don't have much for insurance. a1d647c40b
