

Dear Citizens,

SUBJECT: Start of the new urban solid waste collection system - EXTERNAL/BLUE AREA (SUBURBS San Gregorio, Villanova and Borgomeduna) OF PORDENONE.

Waste management represents one of the most important challenges in terms of environmental protection, sustainable development and health protection. The Municipality of Pordenone and its partner GEA Company are committed to a constant improvement of environmental *standards* to ensure a safe and sustainable present and future for our citizens. However, the current system of urban solid waste collection, public street trash containers, has outlived its usefulness because it does not allow the control and measurement of waste disposal and encourages **the** abandonment.

The last few years have been characterized by a deterioration in the quality of recycled waste collection and increased costs that arise from recovery/disposal and management of treatment plants.

For these reasons, it has been decided to change the current recycling system by intervening on collection methods and service frequencies. Waste taxation criteria will begin on 1 January 2023.

The following major changes will be implemented in your collection area from 15 July 2022:

- 1) All public street dumpsters used to collect paper/cardboard, plastic/aluminum/food cans packaging, garden waste and clippings will be removed;**
- 2) Each user/family will receive dedicated and individual trash container for door-to-door refuse separation collection.**

Trash containers have been chosen in such a way as to cause the least possible inconvenience to the users. Although these new trash containers, called "Easy Trolley", have a reduced volume (45 liters), they are wheeled and ergonomics and will be used specifically for the collection of paper/cardboard and non-recyclable dry waste. Additionally, users will receive 100 liters disposable bags for the collection of plastic, food/soda cans, aluminum and packaging.

New information that will affect your family/activity from **15 JULY 2022** are explained in the following pages that we invite you to read with particular attention. The new collection system will begin on 1 January 2023, it is preparatory to the application of fees calculated on the basis of actual waste collection amounts (fee-based pricing).

The TARI (waste tax) remains active throughout 2022. The current waste tax is calculated on flat-rate criteria such as the surface area occupied and the estimated count data based on the household waste generated.

From 1 January 2023, the TARI will be replaced by the *corresponding rate* (Law n.147/2013 art. 1, paragraph 668), which requires users to pay a proportional amount to the service used and it will be calculated on the disposal of non-recyclable dry waste. We remind you that the new urban solid waste collection system and use of the new trash kit for waste collection is mandatory. The various phases that will precede the start of the new waste collection system, in particular the distribution of the containers and the informational material, will require the collaboration and participation of all citizens.

For further information, please send an email to nuovaraccoltapn@gea-pn.it, call GEA at the toll-free number **800 501077**, or call the switchboard at **0434 504711**.

For American personnel residing in Pordenone, please contact the **31st Civil Engineer Squadron (CES/CEI)**, Community Recycling Liaison by email at giovanna.coppola.it@us.af.mil or by calling **DSN 632-302511 or 0434 302511**.

The various phases that will precede the start of the new waste collection system, in the specific the distribution of trash containers and informational material, will require the participation and collaboration of all citizens.

Thank you for your collaboration and active participation in this important phase of change for our City

Best regards.

Municipality of Pordenone
Mayor - Alessandro Ciriani
Environment Alderman - Monica Cairolì

The days of door-to-door collection service and the times for placing the containers out of your residence will be listed in the CALENDAR that will be distributed with the trash- kit.

PLEASE NOTE: there may be changes from the current waste collection days.

TRASH KIT PICKUP PROCEDURES

To speed up the delivery of new containers and in order to pick up the trash kit, it is important that the American citizens show up with the **copy of the rent contract (copy of the first page only)**.

NOTICE: Users, in order to pick up the new trash container, must show up at the GEA Info Point bringing with them the Yellow Non-recyclable dry waste container "NAPO," that must be returned to GEA.

Trash kit pick up should preferably be made by the landlord/landlady (person named on the TARI waste bill) or by another member of the family. If the landlord/landlady are not available to pick up the trash kit, they should delegate the tenants -filled and signed the attached form-, providing also a copy of delegation signed by the landlord/landlady and a copy of the delegating person's ID.

Users can pickup the "standard trash kit" at the Info Point GEA located in Via Savio, 22 - Pordenone. Trash kit pickup should be arranged by making an appointment following these specific instructions:

- calling GEA toll-free number 800 501077
- calling GEA switchboard number 0434 504711
- sending an email to nuovaraccoltapn@gea-pn.it
- for American users only, send an email to giovanna.coppola.it@us.af.mil
