The Labour leader Jeremy Corbyn has spoken publicly about the party's spending plans, in an interview with BBC Newsnight. Asked if he is willing to be more flexible, he says: "Yes. We have to be willing to be flexible but we have to be at all times based on a rigorous analysis of what we've got, what we need and what we don't need." "If a member of the public needs their boiler replaced - yes, they're going to want to know how much it costs." Mr Corbyn is referring to the amount of money that the Labour party has spent over the past four years, in an effort to keep spending low. The party's previous spending plans were published before the election in 2015, and the party made £6.5m in savings to them - and Mr Corbyn's office has been referring to them as a "contract" for four years. "We are now saying we will not honour that contract," Mr Corbyn says. "We will have a rigorous analysis of it and we'll be using the skills of the excellent officers of the party to say what we have got - what we think we need to make us strong going forward. "And I say as a leader, it is really important for us to be on top of what we spend." But he says his new figures will be more up to date. "What I think is that you are in a transition period where you're establishing your party. You're getting back into spending decisions. You're making decisions about what we are going to spend, and you're spending money. "You've got to be on top of it. You've got to be on top of that spending because if you're not, people get to know you.

■ ELDEN RING PANTAGON

In the Lands Between, the Seven Dragons formed a protectorate called the Elden Ring, and one of them, the Ashurum Kingdom, controls the territory. People from the rest of the world, however, labeled the defendent the Amurum Kingdom on the pretext of it being an orphanage empire, and began to attack it. Meanwhile, during the six years of the invasion and a long period of time in which the Ashurum Kingdom stagnated and became powerless, another side, the Ashurum Empire, appeared, believing that the people of the world should be united as one.

\*\*\*\*\*GameSpot\*\*\*\*\* THE REVIEW: \*\*\*\*\*GameSpot\*\*\*\*\*Elden Ring Review: The Elder Scrolls meets Destiny The Elder Scrolls games from Bethesda, the studio that had created Oblivion, were the single-player role-playing game that was built entirely upon the open-world structure. Destiny, another Bethesda effort, was a first-person shooter that also allowed you to build a character from the ground-up. There was no transition between the different genres, making each game great in its own right. With their combine of first- and third-person action and the ability to play alone or in teams, two years ago Elder Scrolls Online hit the market. While it had been quite successful as a digital-only product, the game now has a PC version. The game that we played in this review features the newly released PvP mode and five other bonus modes. The PvP mode differs from the original in that you can choose to be either a melee character or a ranger. The PvP mode allows you to clash with other players in the world without restrictions. The Elder Scrolls Online includes the Orsinium, a massive settlement made with Nordic architecture. The world has been expanded in the PC version and the game has a more intimate scale to allow for new content. Elden Ring is the title of the game's popular new PvP mode. As a classless game that allows you to explore, develop your own character, and use a variety of weapons and magic, it's more similar to Destiny than previous Elder Scrolls games. The goal of the game is to work your way from Level 1 to Level 30 in various zones, with your character level increasing as you defeat enemies. To keep the game more akin to Destiny, when you die you return to your respawning spot. There are a variety of activities that can be engaged in while you explore, such as using buffs that effect other players, causing monsters to fight among themselves, and launching a lightning trap that electrocutes players in range. While you level up and reach higher levels, you earn skill points that you can use to customize your character. You can also use the skill points to purchase items. The items that you acquire, such as weapons or armor, have stat points that can be used to improve your stats. The items available for purchase range from different types of potions to dynamic-action skills. The game features a progression system that rewards you for playing time. There is a currency called power that can be purchased bff6bb2d33
