Located in the south of Argentina, Rosario is separated from Santa Fe (the nearest big city) by the hills of the Central Valley. On its hill are located luxurious houses where Art Nouveau style takes a central role. Here we travel to a typical neighborhood in Rosario, Catedral, where we track down the locals. In Catedral, one will find the great public parks, or the countrysides, where we can enjoy those beautiful views. We finish off our tour with a visit to the most beautiful places all around Rosario such as: - The Metropolitan Center of Culture, featuring the artwork of hundreds of painters and engravers. - The congress center, where it is possible to enjoy multiple concerts, exhibitions, ballet performances and plays. - The master painting studios of the Santa Maria del Rosario church. - The central plaza, where we will see the thriving heart of Rosario. - The main churches of the area, such as the Church of Santa Ana. - The Rosario bridge, the most famous landmark of the city. - The city's symbol, the Torre de Piedra. - The characteristic barrios of Rosario, such as La Lagunada, Los Cuareimos, San Lorenzo, Los Castillos, Los Pioneros, Piedras Blancas and the Villa Luro. 1:06 Fayrouz - THE BEAUTY OF MEN Fayrouz - THE BEAUTY OF MEN Fayrouz - THE BEAUTY OF MEN \*\*Note: As in some regions of the world in order to protect the modesty of young girls and to prevent their being exploited by men, some people may find it inappropriate that this video contains full frontal nudity that might be viewed by people of any age (including children of b7e8fdf5c8
