Place the trash container out of your residence on a public street and in a visible place, after 07:30 p.m. the evening before the scheduled day of collection. Trash container, after emptying and as soon as possible, but no later than the end of the day, must be brought inside the private property.

MyGEO App

GEO's App helps you to manage your waste.

RECEIVE NOTIFICATIONS ABOUT COLLECTION DAYS AND TIMES FOR EACH TYPE OF WASTE.

Download MyGEO and open it, select the municipality and the street where you live on, activate "Do you want to receive notifications?" button, and choose a time. That's it!
You will receive a notification that remind you when specific waste containers-bags must be placed out of your residence.

YOU CAN GET INFORMATION ABOUT RECYCLING SERVICES IN YOUR MUNICIPALITY.

From the settings menu enter the municipality for which you want to receive notifications or get information. Select as your favorite the municipality where you live on, identifying it with a little red heart: information about your favorite address will be notified to you with priority. In addition, you can add two more municipalities.

CONSULT THE GLOSSARY FOR SEPARATING WASTE CORRECTLY.

MyGEO contains a handy guide to perform a proper refuse separation collection: consult the list to find out in which trash container/bag you should dispose of each waste.

YOU WILL EASILY FIND THE SERVICES YOU NEED.

- **Waste Collection point maps:** interactive maps allow you to view all the different services available in the area.
- **Waste Collection Center:** find the address, days and opening hours of your waste collection center.
- **Contacts:** you will easily have all the useful contacts data available for ask information or to submit notifications/complaints and reports.

Frame the QR code on your smartphone or computer and watch how it is easy and convenient to use MyGEO.

MyGEO is free and it is available in app stores for downloading
